3. INSTALLATION

1. **Prepare for installation:**
   a. Remove the screws securing the existing brackets.
   b. Detach the brackets from the unit.
2. **Attach side brackets:**
   a. Install the four side brackets to the underside of the unit base.
   b. Ensure that they are securely positioned.
3. **Install the bottom plate:**
   a. Attach the bottom plate to the four side brackets using the provided screws.
   b. Ensure that all connections are tight and stable.
4. **Insert adjustable feet:**
   a. Insert the four adjustable feet into the bottom plate.
   b. Verify that each foot is properly threaded and securely fastened.
5. **Level the unit:**
   a. Adjust the feet to achieve the desired height.
   b. Use a level to ensure the unit is correctly aligned and horizontally balanced.
